Presentation and Saturday's
Workshop click [here](#).

Tilak was born and raised in Sri Lanka. Even as a young boy, he displayed unique abilities and sensitivity, which allowed him to connect with the forces of life as a first-hand experience. Tilak did not come from a tradition or a lineage. His words become actual transferences and transmissions that come and touch us like a cool breeze and transform our energies and our feelings into the Truth, into a much

The Portal is designed for adventurers who wish to explore ways of experiencing life in its excellence through Tilak's teachings and practices.

During The Portal students will be given a personal transmission, hear a presentation from Tilak on the embodiment of his teachings—which will be received as transference of energy rather than information and knowledge—and participate in practices that will enable them to continue gliding into a frictionless, effortless life afterwards.

better world for us to live in.

Private Sessions and Intensives by appointment

A session with Tilak is an extraordinary experience. He will facilitate, through his unique energy and ability to create openings, a process in which you will be able to let go or flush out whatever darkness or holding patterns that have restricted your freedom, and experience an awakening of your heart. You will feel a very pleasant experience of timelessness without any emotional or mental process of catharsis or insight. People leave feeling great with a new freshness and well-being and a heart ready to burst with adventure.

Call for Session and Intensive fees and to make an appointment.
